

Aadhar Enabled Authentication for Existing Customers

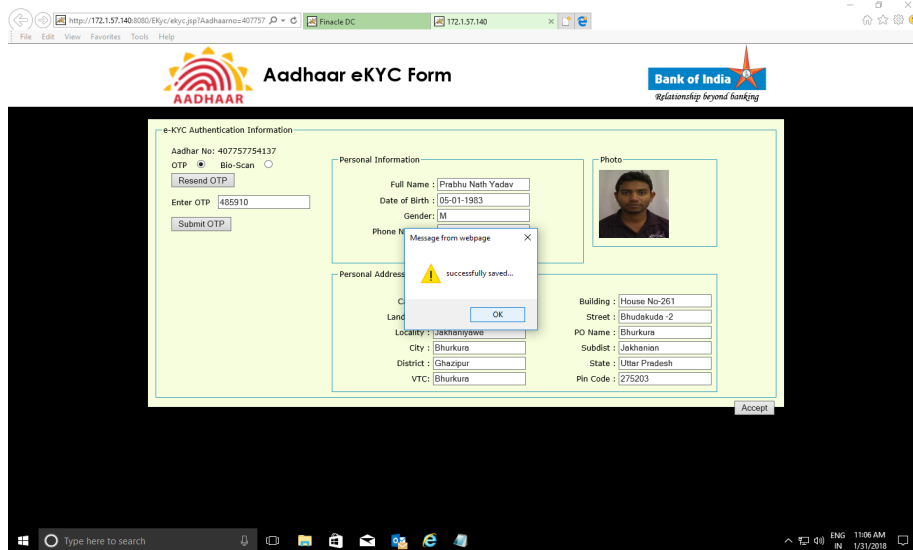

Menu Name : **EUIDEKYC** (Existing UID Checking for Customer)

Process Flow:

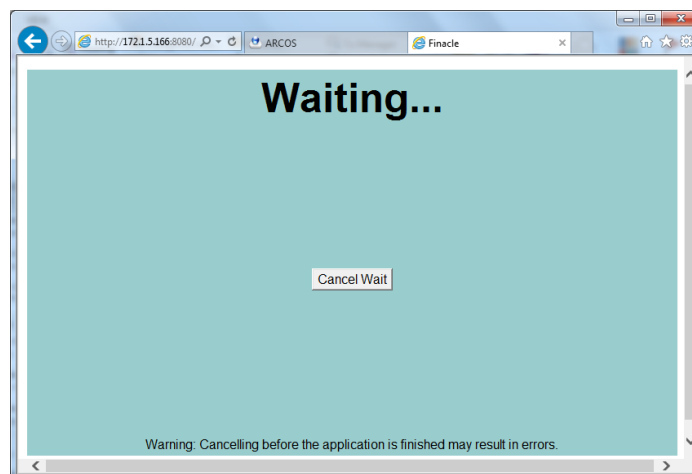

- Customer visit to the branch for submission of his/her Aadhar authentication.
- He/she must contains Customer ID/Account Number and Aadhar Number.
- Branch User will open the Menu EUIDEKYC for validating the existing Customer details.
- User Enters Function Code "E" , Aadhar Number as per the Aadhar Card and Customer ID for the existing customer.
- In case Customer's Aadhar is not linked to the Customer ID, appropriate Message will appear on the screen advising to see the details in Finacle Menu CUMM .

The screenshot shows a web browser window with the URL `http://172.1.2.52:8080/boi/b` and the page title "Existing Customer Aadhar Authentication". The page content includes a header with "aafe0003" on the left and "31-01-2018" on the right. The main form area has three input fields: "Function Code" with the value "E", "Aadhar ID" with the value "407757754137", and "Cust ID" with the value "175838145". At the bottom of the browser window, a menu bar is visible with options: "Menu Option", "euidkyc", "Transmit", "ScreenLock", "Accept", "Commit", "PrevRec", "NextRec", "WhoAml", "Background", "PrevBlk", "NextBlk", and a "Branch" indicator.

- Entering the valid data in the required field, User will press F4 to proceed further.
- A new screen will be opened as shown below for capturing the Aadhar Authentication Information using OTP channel or Biometric authentication channel.
 - a. For OTP channel Customer should have registered mobile in hand to advise the OTP.
 - b. For Biometric Scan Channel, Biometric Authentication should be enabled with RD Services at branch's PC.

- Upon Submitting OTP/Biometric credentials, Branch will be able to view the above details with the photograph of the customer.
- Branch Click on ACCEPT button at right down corner of the screen to capture the detail in Finacle and close the window.
- Upon Closing the above screen, system will show "Cancel Wait" Screen.

- User will be able to view customer Details as per the Aadhaar Authentication Information Screen.
